Extensively tested in the field so you ride with 100% confidence.

Designed by the same people who designed your vehicle.

We hold our partners to the same standards.

Designed

We are the #1 name in Off-Road. 65 years in the business.

Tested

Wheels, tires & lighting designed with Polaris to maximize performance.

Trusted

Products so good they replace or repair them for life.

Making products for avid sportsmen since 1943.
FOR MORE

Lock & Ride mounting locations allow for limitless customization to let you work the way you want.

P. 17, 24

Designated mounting points and pre-wired contactors ensure a perfect fit and the strongest place to attach the Polaris Engineered winch - the most dependable winch for your Sportsman. With wiring built right into the vehicle, we made this the easiest Sportsman winch ever made to install.

P. 10

The attachment points for the best-in-class Glacier® Plow System are integrated right at the factory and feature an innovative drive-up and go installation process.

P. 38

Ensuring Polaris Engineered Accessories fit and work in sync with your machine is the most critical phase of testing and validation. With seamless integration, you can trust that any Polaris accessory you install will enhance your interaction beyond your expectations.

Right from the factory, your vehicle is built to make essential accessories like winches and plows easy to use day-in and day-out. Mounting brackets are designed into the oversized factory bumper and wiring is routed securely and properly. When it comes to Sportsman, Polaris Engineered Accessories make work easier so you can get more done.
WHETHER HARD AT WORK OR ON THE TRAILS, ADD A WINCH TO...

- GET THE JOB DONE RIGHT
- GET YOU ON YOUR WAY FASTER
- BE PREPARED FOR UNEXPECTED SITUATIONS

WHY POLARIS?

- OPERATES FULLY SUBMERGED
- INTEGRATED WIRING, MOUNT, PREASSEMBLED
- MOUNT INCLUDED
- PREMIUM SYNTHETIC ROPE
  - Lightweight & Easy to Handle
  - Superior Flexibility & Strength
  - 15 m long
- WIRELESS REMOTE
  - 15 m range wireless remote control with unique code for interference-free operation
- AUTO STOP TECHNOLOGY
  - Stops winch at end of pull to prevent driveline stress and plow overlifting
- FAIRLEAD HOOK
  - Winch stops when fairlead detects collar

ALL POLARIS ENGINEERED WINCHES COME WITH:

1. Set Dial to FREE SPOOL (N) to attach Winch Hook
2. Set Dial to PULL (L) for Winch Mode
3. Set Dial to ROPE RECOVERY (H) for 5x Faster Rope Recovery

REPLACEMENT STEEL CABLE

100 ft WINCH SERIES
- TESTED 1,200+ PULLS AT MAX LOAD
- BUILT TO WITHSTAND -29°C TEMPERATURES
- MILITARY TESTED & APPROVED

PREMIUM SYNTHETIC ROPE

- Lightweight & Easy to Handle
- Superior Flexibility & Strength
- 15 m long

RECOVERY STRAP

- 5cm x 9.1m (8165 kg)
- Comes with carry bag

FOR TRAILERING AND RECOVERY STRAPS SEE P. 59
Each wheel and tire Pro Armor designs for off-road vehicles performs perfectly in the intended environment for its intended use. Developed, tested, and produced in partnership with Polaris, each wheel and tire is designed and constructed with longevity in mind. With ratings of 4,828 kilometers and beyond, you are assured long life and performance.

**PRO ARMOR DUAL-THREAT**
- Dual-compound technology and radial construction offer performance in all terrains
- Softer durometer rubber on outer edge for overall superior grip and feel
- Harder durometer rubber in the middle for increased traction during acceleration and longer tread life

**26" × 9" R14**
- FRONT • 5416340

**26" × 11" R14**
- REAR • 5416341

**TRAIL**
- Tread patterns optimized for extreme traction
- Skid for both hard pack and loose trail

**PRO ARMOR ATTACK**
- The best all-purpose tire for all-season traction in any terrain
- Unique full-face tread design
- Harder durometer lugs promote extended wear, increasing tire life

**26" × 9" R14**
- FRONT • 5415613

**26" × 11" R14**
- REAR • 5415614

**TREAD DEPTH**
- 20" = 0.8" R14

**WEIGHT**
- A lighter tire makes for improved vehicle performance

**PLY RATINGS**
- 8 OR 10-PLY RATED
- Higher ply ratings mean added protection

**SIDEWALL BELTS**
- Sidewalls are the most vulnerable puncture area of any off-road tire
- Pro Armor makes tires with extra protection exactly where it’s needed most – the sidewall

**LOAD RATING**
- Tires with higher load ratings can handle more weight

**TRIPLE-BELTED SIDEWALLS**
- Pro Armor builds the toughest tires
- Higher ply ratings mean added protection

**INNOVATION**
- Dual durometer lugs (Crawler XG & Attack 2.0)
  - Firm durometer rubber on base of lug for stability
  - Soft durometer rubber on top of lug for sticky grip
- Dual compound tread (Dual-Threat)
  - Firm durometer rubber on center of tread for long wear life
  - Soft durometer rubber on shoulders of tread for superior grip

**DUAL DUROMETER LUGS**
- Firm durometer rubber on base of lug for stability
- Soft durometer rubber on top of lug for sticky grip

**DUAL COMPOUND TREAD**
- Firm durometer rubber on center of tread for long wear life
- Soft durometer rubber on shoulders of tread for superior grip

**TRIPLE-BELTED SIDEWALLS**
- Sidewalls are the most vulnerable puncture area of any off-road tire
- Pro Armor makes tires with extra protection exactly where it’s needed most – the sidewall

**LOAD RATING**
- Tires with higher load ratings can handle more weight

It's tough to make Sportsman even more versatile than it already is. But with a set of Prospector Pro® Tracks, you'll do just that. Tread through deep snow without concern.

**Polaris-specific gearing provides 1:1 ratio to**
- Minimize track slip, providing better climbing ability and improved traction in deep snow.
- Improve top speed over prior models by approximately 5%.
- Reduce operating RPM for a quieter ride.
- Improve driveline durability, which allows the vehicle to run at a lower RPM, decreasing engine wear.

**Flexible lug design provides the highest level of deep snow performance by lifting up in deep snow as opposed to digging down.**

**Lightweight design provides for better flotation, ease steering effort, and provides better vehicle control.**

**New front dual stabilizers for improved stability.**

**Polaris exclusive optimized hub geometry that minimizes feedback and ease steering effort.**

**GLACIER® PRO HD GIVES YOU**

- Choice of poly or steel
- 168 cm, 152 cm or 132 cm Blades
- Ability to add a hydraulic angle system

**MANDATORY STEPS**

- Step 1: Select a Mount
- Step 2: Select a Frame
- Step 3: Select Plow Configuration
- Step 4: Add Hydraulics

**OPTIONAL**

- 168 cm Poly
- 152 cm Steel
- 132 cm Steel

**ACCESSORIES & REPLACEMENT ITEMS**

- 168 cm HD Wear Bar
- 132 cm Wear Bar
- Glacier® Pro Shear Pin Replacement
- Plow Winch Rope (for 1,134 kg & 1,588 kg winches)
- Plow Blade Snow Deflector
- Plow Blade Deflector
- Skid Shoe
- Glacier® Plow Marker
- Rear Tire Chains
- Plow Blade Track Extension

**GLACIER® ENGINEERED ADVANTAGE**

- 30 seconds: Drive up, clip in, lock down, and go — the integrated Polaris Engineered Glacier® Plow System simplifies plowing.

- Lift and angle adjustments can be made from the driver’s seat.

- A plow system is only as strong as its frame, and Polaris Engineered plow frames have a wide frame to withstand the rigors of heavy plowing.

- Available in strong stamped steel or corrosion-resistant poly materials, Polaris Engineered plow blades cover a large surface area for quick snow removal.

**INSTALLATION**

- THE POLARIS ENGINEERED ADVANTAGE
- CONVENIENCE
- ROBUST FRAME
- DURABLE BLADES

GRIZZLY TESTED.
POLARIS APPROVED.

This cooler is IUCG-approved, meaning it withstands the power expended by a typical grizzly bear if it was trying to get inside.

Seriously, there are experts who know what a grizzly is capable of doing, and they certify our coolers can take it.

GRIZZLY TESTED.
POLARIS APPROVED.
FOR THE LIFE OF YOUR RIDE
ONLY THE BEST WILL DO

To create the best oil for any terrain, we invest in rigorous testing to ensure our oil delivers the consistency and performance you demand. The results are Polaris Engineered Lubricants that are tested and perfected to deliver excellent total engine protection for the life of your ride.

WHAT COUNTS IN OIL TESTING:
1. Does it protect the engine at high temperatures?
2. Does it keep the engine free from carbon and buildup?
3. Does the oil hold its viscosity over time?

ENGINE CHECKPOINTS
When evaluating an engine oil and its ability to protect and preserve the engine’s power output and lifespan, Polaris engineers focus on key areas within the engine, some of the most critical being:

RINGS LANDS: Poor oxidative performance can lead to carbon and varnish buildup, which results in poor ring seal and loss of power, combustion blow by and fuel dilution of the oil.

PISTON KINGS: During the combustion process, extreme pressures are placed on the top ring, forcing it outward toward the cylinder wall, sealing the combustion chamber. With so much force applied, poor oil film strength between the top ring and the cylinder wall can lead to cylinder wear and loss of power.

ROD BEARINGS: Engine bearing’s ride on an extremely thin hydrodynamic film of oil. Poor oil film strength or using an oil with a thinner viscosity, can lead to premature bearing wear or even engine failure. Using an oil with high film strength and a strong viscosity, like PS-4 full synthetic, will extend the service life of your engine.

CAMSHAFT: Direct Acting Overhead Camshafts are used on many Polaris Prostar Engines. In this application the camshaft pushes directly on the valve, creating very high contact pressures compared to other camshaft configurations. These forces are so great that inferior oil can break down and be forced out of the contact area leading to increased wear. PS-4 full synthetic additives are specifically designed to provide wear protection against this.

OIL DEVELOPMENT

OIL CHANGE INTERVAL SCHEDULES

12 TEAM MEMBERS
18+ MONTHS
75,000+ HOURS
64,374 KM

ENGINEERED TO MAXIMIZE THE LIFE OF YOUR RIDE
All Polaris fluids—from anti-freeze to brake fluid—are developed for your vehicle. Trust the only fluids perfectly engineered for your needs.

PS-4 FULL-SYNTHETIC OIL

• PS-4 is designed specifically for Polaris 4-cycle engines and has high film strength and a strong viscosity, like PS-4 full synthetic, will extend the service life of your engine.

PS-4 EXTREME-DUTY FULL-SYNTHETIC OIL

• PS-4 is optimized for extreme operating conditions of -40°C to 55°C.

PS-4 OIL CHANGE KIT

• Contains the proper amount of oil for your vehicle and correct oil filter.

CARBON CLEAN

A proprietary blend of additives designed to optimize Polaris® ORV fuel injectors. Prevents performance degradation on all Polaris® ORVs.

FUEL STABILIZER

Fuel Stabilizer prevents ethanol corrosion and dilution fuel for up to 2 years. Treats fuel to improve fuel economy. Protects engine and carburetor for easy starting.

BERTHOLD

A blend of biodegradable silicone-based esters that will prevent and remove carbon, fuel varnish, gum and sludge from engine parts.

FUEL ADDITIVES

A blend of biodegradable silicone-based esters that will prevent and remove carbon, fuel varnish, gum and sludge from engine parts.

PREMIUM GAS THICKENING OIL

A proprietary blend of additives designed to optimize Polaris® ORV drive chains.

DOT 4 BRAKE FLUID

Polaris DOT 4 Brake Fluid is a high quality brake fluid designed for use in Polaris hydraulic brakes. Superior high-temp characteristics plus anti-corrosive additives ensure complete protection for your brake system.

ANTI-FREEZE

Polaris Extended Life Coolant contains organic acids and technology to prevent corrosion on metal components, eliminate scaling, and minimize cooling system performance.

AGL

Polaris AGL is a high performance coolant designed specifically for Polaris ORV engines. AGL is an extreme duty coolant engineered to perform in extreme hot and cold environments.

DEMAND DRIVE FLUID

Engineered specifically for Polaris ORV front drive systems. Provides positive 4WD engagement in extreme conditions. AGL is designed with extreme pressure additives to protect internal components under heavy loads and protect against premature engagement.

STANDARD GEARBOX

A proprietary blend of additives designed to optimize Polaris® ORV transmission life. Extreme pressure additives protect gears, drive shafts, and bearings from scoring and wear.

POLARIS OIL

A blend of biodegradable silicone-based esters that will prevent and remove carbon, fuel varnish, gum and sludge from engine parts.
FOR THE LIFE OF YOUR RIDE

MAINTENANCE TIP

BREAK-IN PERIOD

The break-in period for your new Sportsman is the first 25 hours of operation, or the time it takes to use the first two tanks of fuel. No single action on your part is as important as a proper break-in period. Careful treatment of a new engine will result in more efficient performance and longer life for the engine. Perform the listed procedures carefully.

OIL & LUBRICANTS

Never leave a battery unattended during the storage season. To ensure proper battery charge when unused for extended periods of time or during freezing weather, the battery should be charged once a month. If the battery is to be stored for an extended period, it should be discharged and replaced.

BRAKE PADS

Check your brakes if you are close to the recommended service intervals. Hair grinding when applying the brakes, your vehicle is taking longer to stop or if you have to apply more pressure to your pedal to engage the brakes. Check the brake discs for signs of cracks, excessive corrosion or warping.

HALF SHAFT

Extreme elements can contribute to air filter where green or form a crust. Replace the air filter if the CI limit is compromised. Full replacement will occur if the CI limit is not exceeded. Discs need to be cleaned with brake cleaner or alcohol based cleaner only.

ENGINE OIL

During the first three hours of use.

Three hours of operation will damage performance and longer life for the engine. Perform the listed procedures carefully.

HALF SHAFT

During the first three hours of use.

Three hours of operation will damage performance and longer life for the engine. Perform the listed procedures carefully.

BREAK-IN PERIOD

The break-in period for your new Sportsman is the first 25 hours of operation, or the time it takes to use the first two tanks of fuel. No single action on your part is as important as a proper break-in period. Careful treatment of a new engine will result in more efficient performance and longer life for the engine. Perform the listed procedures carefully.

NOTICE: European vehicles may differ during the first three hours of use.

BATTERIES

Never leave a battery unattended during the storage season. To ensure proper battery charge when unused for extended periods of time or during freezing weather, the battery should be charged once a month. If the battery is to be stored for an extended period, it should be discharged and replaced.

BRAKE PADS

Check your brakes if you are close to the recommended service intervals. Hair grinding when applying the brakes, your vehicle is taking longer to stop or if you have to apply more pressure to your pedal to engage the brakes. Check the brake discs for signs of cracks, excessive corrosion or warping.

If the brake pads are contaminated with oil-based products (petroleum products), brake pads have to be discarded and replaced.

Discs need to be cleaned with brake cleaner or alcohol based cleaner only.

HALF SHAFT

Extreme elements can contribute to air filter where green or form a crust. Replace the air filter if the CI limit is compromised. Full replacement will occur if the CI limit is not exceeded. Discs need to be cleaned with brake cleaner or alcohol based cleaner only.

General

Careful treatment of a new engine will result in more efficient performance and longer life for the engine. Perform the listed procedures carefully.

BATTERIES

Never leave a battery unattended during the storage season. To ensure proper battery charge when unused for extended periods of time or during freezing weather, the battery should be charged once a month. If the battery is to be stored for an extended period, it should be discharged and replaced.

Extreme elements can contribute to air filter where green or form a crust. Replace the air filter if the CI limit is compromised. Full replacement will occur if the CI limit is not exceeded. Discs need to be cleaned with brake cleaner or alcohol based cleaner only.

ENGINE OIL

During the first three hours of use.

Three hours of operation will damage performance and longer life for the engine. Perform the listed procedures carefully.

HALF SHAFT

During the first three hours of use.

Three hours of operation will damage performance and longer life for the engine. Perform the listed procedures carefully.

BREAK-IN PERIOD

The break-in period for your new Sportsman is the first 25 hours of operation, or the time it takes to use the first two tanks of fuel. No single action on your part is as important as a proper break-in period. Careful treatment of a new engine will result in more efficient performance and longer life for the engine. Perform the listed procedures carefully.

NOTICE: European vehicles may differ during the first three hours of use.

All Polaris parts are developed and tested to help you get the most out of your ride. Now, we’re taking the passion of our riders, workers, and outdoor enthusiasts to the next level with HD Parts. These heavy-duty parts are engineered for riders who want greater durability and enhanced performance. HD Parts are designed and tested to handle greater wear and tear under all weather conditions. This means longer ride times with less service interruptions and related costs.

**SUSPENSION BOOTS**
- Thicker, stronger boot material better withstands cuts and tears
- Prevents the intrusion of water and contaminants, increasing joint life
- More resistant to cracking due to aging

**BRAKE PADS**
- Longer wear life
- Improved braking in wet & muddy conditions

**WHEEL BEARINGS**
- Utilizes a triple lip seal for improved protection against mud and debris
- Longer life between service and replacement
- Specifically designed for Polaris vehicles

**TIRES**
- Increased tread life
- Material and design for enhanced puncture resistance

**LUBRICANTS**
- High-temperature engine protection
- Increased rust and corrosion protection
- Reduced chance of thermal breakdown in high-temp environments

**BATTERIES**
- Improved starting in cold/poor conditions means increased performance of accessories and longer vehicle operation.
- Larger Capacity
- Measured in Ah (Ampere Hours)
- HD batteries store more energy
- Higher Output
- Measured in CCA (Cold Cranking Amps)
- HD batteries deliver more power when starting and power more auxiliary items

*Claims made based off testing and performance of Polaris HD Parts against standard OEM parts made by Polaris and competitor brands under normal use.

For more information regarding Polaris HD parts including vehicle compatibility, installation, and maintenance, please contact your authorized Polaris ORV dealer (Ranger, ATV, RZR).
Polaris Engineered service parts deliver unmatched performance and fit for your off-road vehicle.

All service parts are engineered specifically for your machine. Which means everything is designed, tested and perfected to maximize the life of your ride. Getting Polaris Engineered parts is a decision that pays off in the long run, because it ensures there is a long run.

VISIT YOUR POLARIS DEALER TO SHOP FOR SERVICE PARTS.

OVER 100,000 PARTS AVAILABLE!

FOR THE LIFE OF YOUR RIDE

Maintenance is the key to keeping your Polaris off-road vehicle performing at its peak. Items like belts, lubricants, and batteries represent only a few of these critical items engineered specifically by Polaris.

POLARIS ENGINEERED DRIVE BELTS

TESTED, PERFECTED

We test each belt on the intended vehicle – we don’t just try to make an existing belt “just work”.

– Amery Kuhl, Polaris CVT System Engineer

OUR INVESTMENT

• 32,187 km of field testing
• Thousands of dyno hours
• 18+ months of development (3,000+ design hours) per belt
• 1200+ vehicle validation hours
• Collaboration with powertrain & clutch engineers

YOUR ADVANTAGE

• No clutch recalibration
• Less wear & tear due to heat
• Ensure maximum performance of your vehicle
• More time out riding, less time wrenching

OUR INVESTMENTS ENSURE POLARIS BELTS OUTPERFORM YOUR EXPECTATIONS.
BatteryMINDer®
ENSURE YOUR RIDE IS READY WHEN YOU ARE.

- Leave your vehicle connected for months and return
  • Never over- or under-charged in any temperature
- Charge and maintain extra backup batteries
  • Made with heavy-duty 16 gauge black zip cord
  • Designed for high-performance specialty AGM sealed batteries
  • Includes a set of battery clips
- Easy push-button selector to change battery type or time

BATTERY MAINTENANCE TIPS
Extend your battery life with a BatteryMINDer® and these tips.

1. Store batteries in a cool, dry location.
2. Check that the battery connections are tight. Cables should not be able to be rotated or shifted by hand.
3. If your battery has a drain, ensure it is free of clips.
4. Charge your battery. Clean with a soft brush to scrub the top of the positive plate making sure to remove grass.
5. Connect a BatteryMINDer® to your vehicle when the vehicle is at regular use.

- Add years of capacity, power and range to new and older batteries, regardless of type or brand
- Never over- or under-charged in any temperature
- Leave your vehicle connected for months and return to fully charged and conditioned batteries
- Review older or weak batteries that would normally need to be replaced
**CV BOOT REPAIR KIT**

- A quick trail side fix to increase trail time
- The flexible and durable boot material expands over a cone tool for CV boot repairs, without disassembling CV axles
- Universal fit – works as a temporary fix for most powersports axles
- All components fit inside the cone, and a cover is provided for compact durable storage
- Easily fits in a cargo box, attached to the roll cage, in the glovebox, or many other storage locations

---

**INSTANT SHINE & DETAILER**

- Professional cleaner, which is formulated with a low pH-value.
- All-purpose cleaner with a low pH-value.
- Perfect for customers living in urban areas with no access to water, makes surfaces shine, works water repellant and also has an antistatic effect.
- Perfectly compatible with rubber, plastics, visors, windscreens, paint and metal.
- The wipe and shine formulation is biodegradable.
- The INSTANT SHINE AND DETAILER is developed for cleaning action without effect. Perfect for customers living in urban areas with no access to water, makes surfaces shine, works water repellant and also has an antistatic effect. Perfectly compatible with rubber, plastics, visors, windscreens, paint and metal.
- The wipe and shine formulation is biodegradable.

MEN’S

WORK JACKET

This warm and rugged jacket was engineered to be tough enough for work and stylish enough for play. The outer fabric is crafted with Nylon 6, a durable, non-stretch woven fabric that is rugged and tear-resistant but feels like a soft, comfortable material. Protection and warmth with 100% nylon shell coated with DWR. 

External Features:
- Superior DWR treatment provides water-resistance in the elements
- Four external pockets for maximum gear storage
- Customized fit with Velcro® wrist closure cuffs
- Internal zipper pocket
- Brushed flannel trim

Internal Features:
- 80 gram Thinsulate for warmth on chilly days
- Built-in action back provides comfortable movement and increased range of motion
- Rain jacket has removable hood

FLANNEL JACKET

Stylish and warm flannel shirt/jacket with front snap closure available in 2 colorways. Soft yet durable brushed flannel on the outside lined with warm Sherpa fleece on the inside. Available in Mens sizing S-3XL.
